

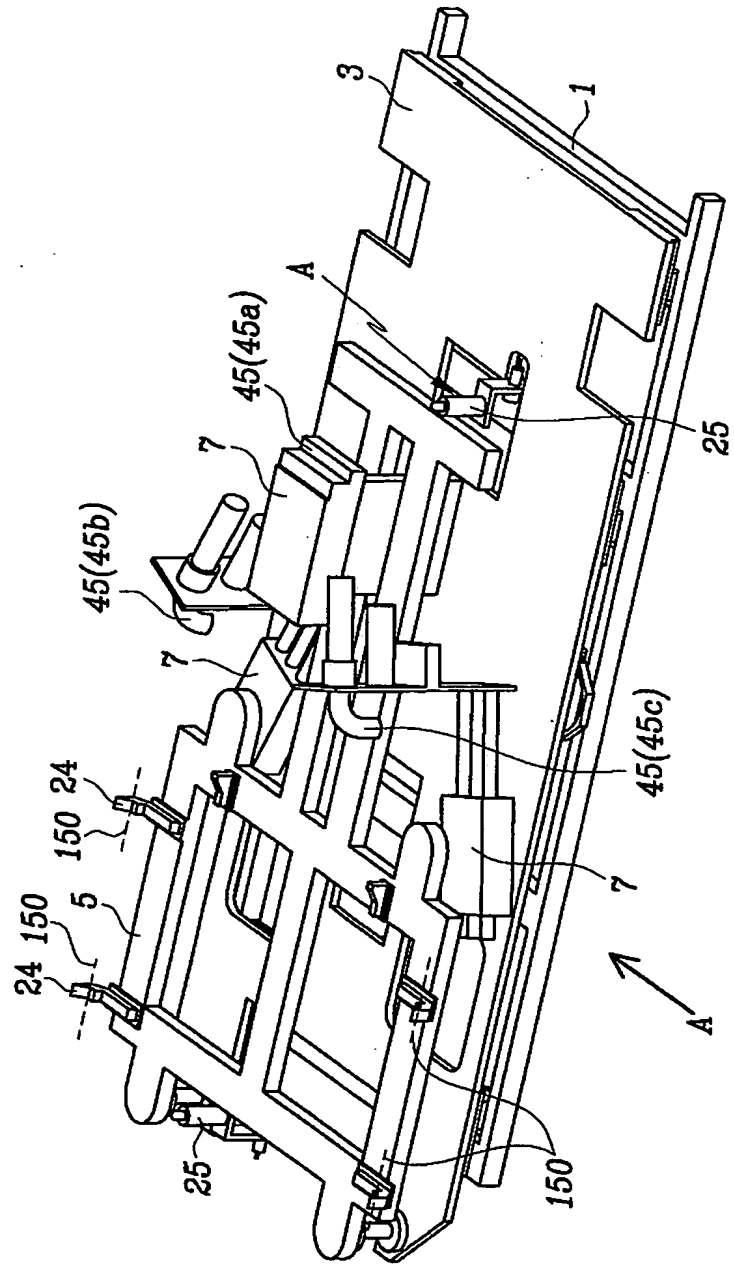

FIG. 1

This diagram illustrates a mechanical assembly from a side perspective. At the top, there is a long horizontal member labeled 100. Below it, a vertical support structure is shown, consisting of a main body labeled 110 and a smaller section labeled 120. To the right of the vertical support, a series of components are arranged horizontally. These include several small rectangular blocks or spacers labeled 1, 3, 5, 7, and 9. A larger component labeled 23 is positioned below these. Other parts are labeled 24, 25, and 45, which appear to be fasteners or pins securing the assembly.
